**19th Meeting of
Telecommunication, SCADA & Telemetry (TeST) Sub- Committee**

Additional Agenda

Contents

- I. **Issues in Unified Load Dispatch & Communication scheme of NR (Phase-II)**
- Item AA-1 [Compatibility of Siemens web-server](#)
- Item AA-2 [The AMC of the existing Siemens SCADA system](#)
- Item AA-3 [SSL certificate to the Siemens COL](#)
- Item AA-4 [Implementation of ULDC Phase-III](#)

I. Issues related to Unified Load Dispatch & Communication scheme of NR)

(Agenda by RVPNL)

AA-1 Compatibility of Siemens web-server:

The Siemens webserver is not compatible with the TLS V1.2 of the Google Chrome Web browser. Due to this, the Corporate one line viewer (COL) is not accessible on the Google Chrome. RVPN vide letter no. 748 dated 18.02.22 requested Siemens to address the issue. But M/s Siemens suggested to either downgrade the version of web-browser or to use VPN tunnel to access the Siemens COL. Both the schemes suggested by M/s Siemens are not suitable.

The Siemens COL is running from the past 7 years and no such advice was given by M/s Siemens earlier. It is only now when they are supposed to upgrade their webserver so as to make it compatible with Google chrome/Internet Explorer, they are suggesting this. It has come to notice other constituents are also facing the same problem.

Siemens be directed to take suitable action to upgrade its web server.

AA-2 The AMC of the existing Siemens SCADA system

The AMC of the existing Siemens SCADA system is upto March-2023 & the upgradation of SCADA system is under progress under "ULDC PHASE-III" executed by PGCIL. PGCIL may update the action taken regarding to continue the AMC of existing SCADA system till the installation and commissioning of new SCADA system.

AA-3 SSL certificate to the Siemens COL

SSL certificate not issued to the Siemens COL mapped with domain address <https://scada.rvpn.co.in/CorporateUI/logon.do>, making it vulnerable to Cyber security threats, despite repeated request from RVPN.

Siemens may update on the issue.

(Agenda by PGCIL)

AA-4 Implementation of ULDC Phase-III

Implementation of Unified Load Dispatch and Communication (ULDC) Phase-III (SCADA/EMS upgradation Project) for eight no of SLDCs for NR state utilities, was approved in 49th NRPC meeting.

In line with the same, various meetings were held with state utilities on 1.11.2021, 30.12.2021, 7.01.2022, & 28.01-2022 for the finalization of BoQ and technical specification. Based on detailed discussions of various meetings, POWERGRID had prepared a draft BoQ and had shared it with utilities on 16.02.2022.

Further, confirmation from states on draft BoQ is awaited for proceeding further in carrying out various tendering activities for ULDC Phase-III and as informed by utilities. Draft BoQ is under approval at management level at their end.

For information to members.
